You can feel in your heart all the joy provided to us by this meeting with your Master. It is the outcome of a long preparatory process that took place between you both, in order to iron out difficulties, which this project represented. Things are taking shape. We see to it, surrender to our will. All must proceed according to our plans.

"Welcome, my dear son, this meeting is 'historical' in our eyes. Its implications will go well beyond a simple initial contact and the evocation of a long series of messages. You will discover other aspects that you could not expect. In spite of appearances, our medium should be spared; she will do her level best. May she convey here, as usual, all our love for you.

"My dear son, all is well. Continue on your way waiting for the great day of our reunion. Be happy, you fill us with joy, be sure of it."
