Saturday, September 16, 2000 - 10:30 a.m.

Why not follow this medical opinion? Considering the situation you are in, it is an experiment worth trying; this painkiller does not seem devastating. Your nervous system, in addition to the rest, is tired by so many tests and sufferings. One will never know how much of yourself you are giving in these contacts, and the amount of energy that drains you in receiving these messages. Your fellow men see only the good side of things; they cannot imagine the reality and the resulting disorders in the physical body. For you, my dear child, only service matters. We like this generosity and your way of advancing in spite of everything. This anthology is taking shape thanks to your perseverance and your courage; the hierarchy is watching and they appreciate. You offer your gifts to our service and the result is satisfactory.

"These collections have taken shape; one day, they will be at the disposal of those who will want to read them and especially those who will know how to read them.

"At that stage, we will not be able to do anything else; only the goodwill of each one will matter."
